

# A Better Way to Find the Best Contractors

## EXPERIENCED | CONNECTED | NO COST

At NO COST to the customer, we streamline connecting customers with contractors. No matter the size, complexity, or number of locations, we have a national network of trusted contractors who can handle any project.

### ONGOING MAINTENANCE

Keep your business running smoothly with planned and scheduled projects to stay ahead of maintenance issues.

### CONSTRUCTION

New builds, facility expansions, or building upgrades – Your business is growing, and you need the right partner to prepare your facility for the future.

### EMERGENCY MAINTENANCE

Reduce unexpected downtime – Your advisor will streamline finding the best contractor and get you back up and running.

### SUPPLEMENTAL LABOR

Bolster your maintenance team with highly trained workers for certain projects, and let your in-house team focus on other priorities.

## MULTI-FACILITY & NATIONAL ACCOUNTS

DiamondLink Service makes executing projects across multiple facilities easier than ever for national-scale customers. When planning a project spanning multiple facilities around the country, you need a partner to make sure everything flows seamlessly.
